CAFRAL requests you to [participate in the survey with a passion for better banking and initiate the discussions on the forums leading to change.](#)

CAFRAL intends to create formal forums like Bank CEO Forum, Bank CRO Forums etc to deliberate upon any key issues and challenges faced by the banking sector as a sounding board for the regulator on the relative areas. For the purpose we are creating a survey for finding out perceptions about five important issues affecting banking sector in the next five years. We request bankers and other finance professionals to identify five most important issues they perceive which would be affecting banking sector in the next five years. Based on the inputs of this survey, we will form five Group Forums. Each group would be encouraged to meet once and later communicate through blog or specific discussion forum which will be created. These specific forums would further deliberate on the issues to find possible solutions arising out of discussions. The firmed up issues broadly affecting the banking sector and possible solutions would be forwarded to RBI and Govt. of India, for necessary action.

Program for Non-Executive Directors on the Boards of Public Sector Banks

November 17, 2014

Banking has become more complex over the years with rapid developments in the area of risk management, implementation of Basel capital accords, and of late stress in asset quality on account of global and domestic factors. Understanding these issues by the Board members so as to exercise effective Corporate Governance in banks therefore assumes significant importance. Boards of banks are required to focus on business strategy and risk management so as to provide effective oversight to steer their banks through their present difficult position.
