

Program on Digital Banking Transformation: A 360 Degree View

Objective of the Program

The objective of the program is to provide the participants with a 360-degree view of what digital banking or digital financial services is. Participants will develop good understanding of strategic, risk, technological and other operational aspects of digital banking particularly mindful of the fact that digitalization of financial services is set to be quite extensive in near future. Participants will explore the reasons why some banks are catching up fast in the area of digitalization while many are lagging behind. It will provide the participants with policy and practical inputs to equip them well for implementation of digitalisation program.
